

Digital Harmonic Register

A precise and accurate solution that adjusts the register and can set the register position repeatable to .001", the Digital Harmonic Register is a popular tool with zero backlash and lost motion.

Benefits

- ▶ Position repeatability down to .001" while running
- ▶ Set-up time in about a minute with only one sheet
- ▶ Minimal cleaning required
- ▶ Reduces waste from unregistered boxes
- ▶ Requires virtually no maintenance for 10 years

Features

- ▶ Servo-controlled holding brake
- ▶ Touch screen controls

Digital Harmonic Registers are engineered to be compatible with many manufacturers and models.

Choose Printing Solutions from SUN Automation

Our printing solutions are available as direct upgrades on existing machines and as OEM products for machine manufacturers. We are always eager to help your operations team with their printing challenges.

Achieving Success

From high-graphics to high-speed, several elements contribute to successful printing on corrugated:

- ▶ Accurate sheet transfer through all print sections of the machine
- ▶ Quality printing plates and the ability to precisely position the plates on the equipment to achieve the desired image
- ▶ Precise ink-metering of the anilox rolls
- ▶ Proper anilox configuration for the specific work group
- ▶ Ink chemistry management
- ▶ Proper substrates for each application
- ▶ Elimination of converting equipment interference during the printing process

About SUN Automation Group®

SUN Automation, headquartered near Baltimore, Maryland, is the world's leading manufacturer of corrugated box equipment. The company's innovative feeding, printing, and converting technologies enable comprehensive solutions for corrugated box plants to increase production efficiency and profitability. SUNAutomation places a strong emphasis on customer support and provides 24-hour on-site technical support globally. Founded in 1985, SUN Automation is 100% employee owned.

Put innovation on your production floor.

Update your converting systems today:
