

Replaceable Feed Roll Covers

30 Minute Installation by One Operator

New, patent pending covers are replaceable in ~10 inch wide sections without removing the roll from the machine, enabling installation by one operator in a fraction of the time it takes to replace an entire feed roll.

EZ-Cover Features

- ▶ **INTUITIVE DESIGN** Can be replaced without the involvement of maintenance personnel
- ▶ **REDUCED DOWNTIME** Significantly reduces planned and unplanned downtime
- ▶ **LOWER COSTS** More cost effective than storing and replacing spare rolls
- ▶ **MATERIAL SPECIFICATION** Match OEM specifications, available in single or dual durometer

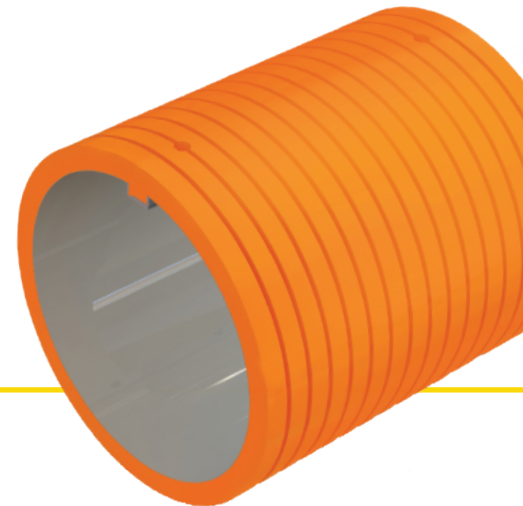

Save time and labor.
Installation of SUN EZ-Covers
takes 30 minutes and one
operator vs. 4-6 hours of
replacing a feed roll by at
least two maintenance
employees.

EZ-Cover System

1. The system consists of a core and a set of replaceable covers which fasten to the core
2. At scheduled time, worn EZ-Covers are removed and new set is installed
3. Core remains in the machine

General Benefits

- ▶ Eliminates the need to stock spare feed rolls
- ▶ Replaceable in 10 inch wide sections
- ▶ One-person installation
- ▶ Reduces replacement time to approximately 30 minutes
- ▶ Cost Savings (Swap-out Labor, Crating, Transportation, Inventory and Handling)
