

PALLET INSERTER

Automatically Stage, Retrieve and Deliver Pallets
Improve efficiency with PARA's fully automatic system.

The PARA Pallet Inserter automatically retrieves and delivers up to 2 pallets at a time for upcoming orders. Can be equipped with double stacking capabilities and a load topper, the high-speed system rounds out PARA's end-to-end automation solutions by optimizing end-of-line efficiency and accuracy.

Only sold and serviced through SUN in the UK, Ireland, US, Canada and Mexico.

ERP Automation

Automatically stages order based on specified inputs.

Double Stacking

To maximize your truck loading efficiency.

Load Topper

Protective layer made from any material that fits within the machine.

PALLET INSERTER

Exit Line Solution to Improve Output

Unlike other systems, PARA's Pallet Inserter completely eliminates the need for manual operation, significantly reducing labor costs and increasing workplace safety. Rated at 200 pallets per hour, even a single Pallet Inserter can effectively service most high-volume plants.

Sheet Topper

- Optional add-on
- Corrugated, paper, aluminum, plywood, or any other material

Double Pallet Delivery

- Able to deliver 2 pallets at a time to decrease cycle time

Safety & Security

- Muting photocells at product entrance and exit
- Physical security perimeter barriers
